Prerequisite: Completion of Math 31A with a grade of C, or better.
Text: Multivariable Calculus, by Jon Rogawski and Colin Adams 3rd edition. We will cover most of chapters 13, 14, and 15.

Grading: Your final average in this class will be computed as the maximum of the following schemes:

Scheme 1: Homework 20%, Midterm 1 20%, Midterm 2 20%, Final 40 %
Scheme 2: Homework 20%, Max. of Midterms 1 and 2: 30%, Final 50%

Homework: Homework will be assigned and collected every week in class, on Monday. It will be graded and returned to you in your discussion sections, usually the following week. The assignments will be posted on the course website. Late homework will not be accepted, unless you make prior arrangements with me.

Exams: During the exams, you may not use notes, calculators, cell phones, or anything other than paper and pen/pencil. A sufficient amount of paper will be provided for you. There will be no make-ups for missed midterms. If you miss one midterm for a legitimate reason, your grade will be computed using the second grading scheme above. You must take the final exam in order to pass the class. Please bring a photo ID to every exam, we may check your ID. The exams are scheduled for the following dates and are in the usual class hours:

Midterm 1: Monday, July 10
Midterm 2: Monday, July 24
Final exam: Wednesday, Aug 2
